

Safer Pet Vaccination & Health Care Educational Seminar & Benefit*

featuring world-renowned experts

W. Jean Dodds, DVM & Ronald D. Schultz, PhD

Sunday, March 28 8 to 5 Del Mar, CA 6 CEU's

Protect your pet's health

Learn which shots your pets *really* need – and which are dangerous or unnecessary and should be avoided. Discover why titer testing may be a safer choice than giving boosters.

Find out what unbiased experts think about new vaccines like the canine flu shot and how to avoid or deal with adverse reactions. Learn how to make vaccinating safer!

\$115 admission includes breakfast, lunch and a bag of natural dog or cat food. Ask about group discounts. Vets, vet techs and trainers can earn 6 CEU's.

**Proceeds Benefit the Rabies Challenge Fund Charitable Trust's work to make rabies vaccination safer for pets.*

Speakers will answer questions during a roundtable Q & A session:

W. Jean Dodds, DVM: former AHVMA Holistic Veterinarian of the Year, consults nationally and internationally on immunology, hematology, endocrinology, nutrition and holistic medicine.

Ron Schultz, PhD: US Representative of the World Small Animal Veterinary Association Vaccination Guidelines Group and Board Member of the 2003 and 2006 American Animal Hospital Association Canine Vaccine Task Forces and the AAEP Feline Vaccine Task Force.
